As a health professional and busy mom of 3 kids, including twin boys with very sensitive skin I am writing to let you know how wonderful your Baby Butz diaper cream is. I have seen and tried them all including brand names, generic products and even expensive organic boutique creams for diaper rash and none of them worked as well as Baby Butz. Before having kids as a pharmacist I would often get asked which diaper cream was the best and I would say they are all really the same. Boy was I wrong. Since trying Baby Butz it is all that I recommend to all of my patients. It really is the best diaper cream on the market.

Thank you for inventing Baby Butz it is really a one of a kind!!
